LOCATION:

SALON NAILS - 5 nails
One hand enhanced with feature nail

Total Possible Points	Total Points Given
-----------------------	--------------------

		Total Possible Points	Total Points Given
JUDGE 1	<p>NAIL LENGTH The length has to be consistent & in proportion (in harmony) with the hand & the fingers on all 5 nails. The nail bed of the small finger must be shorter than the nail bed of the ring & index fingers. The nails should be in line with the metacarpal bones. The nail bed of the ring & index fingers has to be shorter than the nail bed of the middle finger & the thumb. The nail bed measured from the cuticle area (top view) to the deepest point of the smile line (top view). The nail bed should be as long as the end point of the smile line (sideview – lateral sidewall) to the end point of the nail shape/hair line (sideview). The correct length of the competition nails should be a max. 50 % of the nail bed. Points given for difficulty on the crisp French compared to the ombré/blend style of nail.</p>	10	
JUDGE 2	<p>C-CURVE C-Curve should follow the shape of the nail down the entire length of the nail in convex & concave. The C-Curve must be symmetrical & even on all fingers. C-Curve should be 30 - 50% out of a circle from a 100% on all 5 nails. Don't mix, choose one! EXAMPLE: If the competitor chooses 45% on the first nail, all nails need to have a 45% C-Curve.</p>	15	
JUDGE 2	<p>APEX High point of apex & arch must be consistently placed on each nail with correct placement for the resulting nail. Not overly pronounced & elegant. The apex should be consistent & even on all nails. When viewed from the side the apex should be between 25% & 50% of the entire length from cuticle to hair line.</p>	15	
JUDGE 3	<p>NAIL SHAPE The shape of the nails looks consistent & uniform looking down from above the nail & from the model's perspective. Any shape is allowed as long as you stay consistent across all 5 nails.</p>	10	
JUDGE 3	<p>SMILE LINE/ BLEND Consistent shape on all nails, evenly applied so tips match, no shadows, clean line & evenly aligned. Smile line of the index & ring fingers should have the same length measured from the cuticle area to the deepest point of the smile line & from the end point in the lateral folds to the hair line. Smile line of the middle finger needs to be longer than ring finger & index finger. For baby boomer, the same dynamic is to be seen across the nails with perfectly blended pink & white baby boomer nails across 3 nails & the thumb.</p>	10

JUDGE 4	COLOUR Does the colour of the nail enhance the skin tone & nail style?	10	
JUDGE 4	FINISH TOP GLOSS HIGH SHINE All nails are to be brought to a high shine over the entire surface of convex. There should be no visible file scratches, no matte spots on the surface due to unevenness & the work is to be performed using a high shine buffer or the use of top gel. The nails have to shine with a glass finish.	10	
JUDGE 5	OVERALL Score the improvement the nails have brought to the overall look for the hand.	15	
JUDGE 5	FEATURE NAIL Does the design on the ring finger complement the nails, enhance the overall look & complete the overall design with finesse?	15
